- ***Should the competition be called off whilst boats are out at sea, all boats will return immediately to Shelly Beach Ski Boat Launch Site. Should a boat be fighting a fish, then that line must be cut immediately for the boat to return safely to base. This is a SADSAA Safety ruling.***

## NUMBER OF RODS

There are no restrictions on the number of fishing rods carried on the boat or used by any angler at any one time. It has therefore been decided that no cognisance shall be taken of the number of anglers on the boat when calculating the "Overall or Daily Boat Prizes".

## LINE CLASS

The competition has been structured for the following SADSAA approved line classes 10kg, 15kg and 37kg. **The IGFA rule relating to backing is in force.**

- The Skipper must nominate the line class being used by the boat for that day, prior to launching.
- **Only one line class per boat per day is allowed for all anglers on the boat.**
- Should any angler be found to utilize a heavier line than nominated, the boat on which he is fishing, the angler himself and all other anglers on that boat will be disqualified for that day and all days prior where the same line class was specified. The Tackle Master may test your line at any given time during the competition.
- The line tester will be available to all anglers, prior to the competition AT THE TIMES SPECIFIED if any angler wishes to have his line tested.
- The only instance where a line class greater than the nominated line class will be allowed on the boat, is when the line in question is to be utilised for the purpose of pulling a teaser.

## FISHING TACKLE

- IGFA Rules will apply.
- Any form of teaser may be used provided it conforms to IGFA regulations.
- Fishing tackle may be checked daily on a random basis. (Please avail yourself of the facility to test your lines prior to fishing on Monday, as we are experiencing more and more problems with line breaking above its specified breaking point).
- The line tester will be available for competitors to test their lines at Shelly Beach SBC.

## SAFETY

- All boats must have a valid 2019 Certificate of Fitness.
- **All anglers will wear life jackets during launching and beaching.**
- Please adhere to the boundaries on the sea chart provided.

- Please ensure drogue anchors are correctly attached and easily accessible should the need arise.

## WEIGH-IN

- The weigh-in shall be held at Shelly Beach SBC Gallows each day.
- All anglers wishing to weigh fish must be at the weigh in before the cut off times stated in the programme. **Any angler arriving at the weigh in after the specified time 16h00 Day 1- 4 and 15h00 Day 5 will not receive a score for that day.** Please note that this rule will be strictly applied.
- The weigh in must be attended by the Skipper or his delegate and will be supervised by the Weigh Master and his assistants.
- The score sheets will be signed on a daily basis by the Skipper or his delegate and witnessed.
- All current records will be available at the weigh in each day.
- All Anglers weighing fish are asked to please wear Sponsors Shirts / Caps etc. when weighing fish.
- Any unwanted fish may be donated to Shelly Beach Ski-boat Club.

## POINTS SCORING

- The SADSAA points scoring system will be used.
- This system gives benefit to larger fish caught than the line strength used.
- Whatever the line strength used, a one to one fish (i.e. 10kg fish on 10kg line) gives a score of 32 points, which is then multiplied by the species factor applicable.

## METHOD OF CALCULATION

The points for each individual fish will be calculated as follows: -

$$\text{Score} = (\text{Weight} / \text{Line Strength})^2 \times 32 \times \text{Fish Factor}$$

- Fish weight divided by line strength in kilograms.
- The result squared and then multiplied by 32.
- This figure is then multiplied by the fish species factor applicable.

For example; A 30kg Yellowfin Tuna on 10kg line  
30 divided by 10 = 3 x 3 = 9 x 32 x 1 = 288 points
