

The Nomads Tide - A Monthly Brief May 2009

NFE: 27 May at Brazen Head, Terrace Road, Edenvale

A NFE meeting has been scheduled for Wednesday 27 May at 7pm.

Venue: Brazen Head, Terrace Road, Edenvale.

This is a central point so everyone can battle the traffic together and then enjoy a good few cold ones. Since it has been *sooooo loooooong* since we had an NFE a reminder to all that NFE stands for Nomads Fluid Engineers!

The last attempted get together was the "Whiskey tasting evening" to which Nomads had 12 responses!! Let's see if we can do better this time round!!!

See you there.

2009 SGDSAA Development Course

Reminder of the development course

- Theory: Saturday 20th June 2009 with the
- Practical: 16-17-18 July 2009, Shelly Beach

Echo 3 Trailer

I am selling an echo 3 off road trailer, here are some photos and a description of the accessories that come with the trailer. If you are interested or know of anyone who is in the market for an off roader please contact Mark at m.cockcroft@kingsbourne.co.za or 083-646-3486. The trailer is in mint condition and has been very well looked after and maintained. I am asking for R65 000 negotiable and need to sell because of female pressure to upgrade.

The trailer that we are selling has the C + D roof awnings plus 4 sides. These photos will give you an idea of what is included. Unfortunately the trailer is currently at Loftus Caravans in Centurion so I'm not able to take pictures of the actual trailer, but these of an Echo3 with identical layout and design.

The fridge in the last picture is not included in the trailer that is for sale, but this is just to show you that an 80L luna fridge can be stored in this area if needed.

The Nomads Tide - A Monthly Brief May 2009

This was a pic I took of the our camp site in Mozambique, where we had put up the kitchen 'roof' and 2 of the sides to protect the kitchen area (D in layout picture) but there is still another 'roof' awning which attaches to the front which we did not have set up at this time. Also, the kitchen 'roof' was folded back as we did not need to have the whole thing set up. The sides and roof awnings all Velcro together which makes it easy and quick to attach when necessary.

It is a 2006 Echo 3, with the standard kitchen fittings which includes 6 knives 6 forks 6 meat plates 6 side plates 6 cups 6 bowls 6 glasses 1 pot & 1 kettle plus 6 liquid containers & fire extinguisher. A 2 plate gas stove which is attached to the inside of the side door next to the kitchen area. Also included are the awnings (kitchen& patio) 4 sides, 1 ground sheet, plus some extra poles to assist with water run-off for heavy rains. It has a 100lt water tank, two jerry cans, 1 x 7kg gas bottle, standard 6 seater metal table, 9 drawers for packing (plus extra drawer). 220 power pack and 12V dry cell battery. It has electrical cable for site connection, 12V heller plug connections on the side of the van. Permanent internal lighting. 5 locks operated from 1 key. Stone catch protection on the front with spare wheel, all the pegs/ropes/poles for the awnings.
