Results - Big Bore Shoot

Hi Team Nomads

Thank you for the great spirit which you all contributed to our BASA shoot on Saturday! It was a real pleasure having you on the ranges with us.

I have placed the provisional results spreadsheet on our website forums for your info. It may still be subject to change if any corrections or legitimate queries come in.

Nomads members names have yellow back-fill. Note there is a separate page for the sub-calibre/power class too.

All the very best from BASA

Regards

Stephen

Marlin fishing

Subject: MARLIN FISHING

During the 2009/2010 marlin season a lot of marlin were boated (most of which were less than 100 Kgs) along the Zululand coast. The authorities, KZN wildlife (fisheries department) and I.W.P.A. are both well aware of the situation and are very concerned that the recreational anglers are showing very little regard for the future of our billfish resources and have, verbally and in writing, approached Z.D.S.A.A and Zululand clubs to discuss the situation. to date there has not been a formal meeting but Z.D.S.A.A. believe that it will be in all billfish angler's interests to begin a process of self regulation and not wait for the authorities to impose minimum size or full release restrictions on billfish.

Most billfishing is conducted off the Zululand coast and collectively anglers have invested huge capital on boats and tackle suitable for billfishing. This privilege could be destroyed at the stroke of a pen if irresponsible anglers continue killing billfish.

We propose a minimum mass of 150 Kgs for blue and black marlin and full release for all other billfish species.

Please do not go the route of the longliner/commercial argument, we have no control over their operations and can only protect recreational billfishing.

This notice will be sent to all S.A.D.S.A.A. affiliated clubs and we urge all responsible anglers to take this matter seriously.

The future of billfishing is in our hands!!!!

VICE CHAIRMAN & ENVIRONMENTAL OFFICER Z.D.S.A.A.
