Changes in annual seaworthy (COFs)

At a recent SADSAA Safety meeting it was decided that the current calendar year duration of annual seaworthy (COF) certificates will now be replaced by a fiscal year certificate. A calendar year is always January 1 to December 31. A fiscal year, by contrast, can start and end at any point during the year, as long as it comprises a full twelve months. Thus, the vessel owner may determine when they wish to have their vessel surveyed. If successful, the COF will then remain in effect for a full 12 months from the date of inspection. The onus now rests with the vessel owner to determine when they wish to have their vessel surveyed.

Nomads relationship with Rowlin & Hollard

Nomads club benefits from the insurance relationship Nomads members have with these two companies whereby their annual sponsorship towards the Nomads competitions is dependent on the total members insurance portfolios lodged with these companies. The portfolios cover life, short term insurance, vessel, home owners, vehicle, business, medical and other insurance items. Feedback from members who have their insurance portfolios with these companies is very positive in reduced costs, speedy claims and excellent service.

Why not give them an opportunity to review your insurance portfolio thereby indirectly supporting your club. Feel free to contact:
